How to Qualify for the 2009 - 2010 Tax Credit:

2. Must have this Manufacturer's Certification Statement to qualify - it is a signed statement from us certifying that the product or component listed qualifies for 2009-2010 tax credits. Taxpayer must keep a copy of this certification statement or Energy Star label and purchase receipts for their records, but do not have to submit a copy with their tax return.
3. Tax credit is 30% of product cost or a maximum amount of \$1,500.00 over a two year period for 2009 and 2010.
4. Improvements made in 2009 will be claimed on your 2009 taxes (filed by April 15, 2010) using the IRS Tax Form 5695 (2009 version).

Please Note: All qualifying models and glass styles are listed as of May 22, 2009. Due to ongoing product changes and revisions of industry standards and requirements, this information will be updated periodically to reflect those revisions.
